

Just a quick summary of the Southern New England Scrollers club meeting held today at the Woodcraft store in Manchester, CT. Eleven (11) members attended, so many thanks to those who took the time to attend. I had a VERY short business portion, just to address the up-coming Northeast Ohio Scroll Saw event (May 18 & 19) and some questions raised by Bill L. Thanks for all of those that participated in giving feedback. The projects brought in for the "show & tell" were spectacular! I believe that this meeting was one of the best ever for "show & tell", so please take the time to check out the pictures that Max took and will be posting on our website (www.southernnewenglandscrollers.weebly.com) soon. I was very impressed with the jewelry boxes, the clocks, animal portraits, and Corian figures that were part of the show. Great job all! Let's see if the June 10 meeting has the same level of show stoppers that we had this time!

Thanks again to all that came, this was a great meeting.
