

Southern New England Scrollers

December 2, 2018 Meeting Notes

Eight (8) members attended this meeting.

John W. started us off with a recap of the demonstration he did at the Woodcraft store on November 10. John said the most popular questions were about blade size and types. He had brought a 3d project to cut, but due to the borrowed machine limitations, he wasn't able to cut it. He also had some snowflake ornaments to cut; that triggered several discussions on stacked cutting. Max S. had stopped by to drop off some of our trifold brochures and said John had a large crowd around him. The extra brochures were left on the counter at the store to hopefully generate some more interest in the club.

There was a brief discussion about the woodworking show in January. Arnie has the details and will furnish any updates via email.

Several members discussed carpooling arrangements for next week's *"All New England Scroll Saw Clubs"* get together.

John W. brought a new dust mask he purchased from Amazon. He said the "RZ Mask" was originally made for motocross motorcycles, but appears to be working great for scrolling. It has a replaceable carbon filter. It appears to be currently available on Amazon for \$18.98 (at https://www.amazon.com/Dustproof-Masks-Activated-Exhaust-Activities/dp/B07BH36BPJ/ref=sr_1_1_sspa?ie=UTF8&qid=1543796156&sr=8-1-spons&keywords=rz+dust+mask&psc=1).

Show and Tell – Dave M. brought a bird house he made for his granddaughter.

John W. had 5 ornaments that had a glitter paint finish.

Gene M. brought some more of his special ornaments made from Maurille's 3d offcuts.

Bill B. brought several Angels and two colorful 3d ornaments.

Pictures are posted on our website at: <https://southernnewenglandscrollers.weebly.com/december-2018.html>

The next meeting will be February 10, 2019.
