

September 13, 2020 Meeting Notes

Six people attended the meeting in spite of the pandemic. Everyone wore masks and maintained social distance and behaved themselves (most of the time). Everyone brought a project for show & tell:

Arnie brought his "Imperial towers" clock built from a plan in John Nelsons book.

Maurille M. brought a lovely birdhouse that will make any bird happy; a beautiful intarsia angle, a missal toe cutout , and some handouts listing wood toxicity.

Steve R. brought a beautiful large toy tow truck from Toy Maker Plans.

John W. brought 2 compound cut candle stands and a trinket box he has started.

Gene M. brought his Pontiac Chief clock featuring some beautiful inlay work.

Each project brought up a discussion on some topic related to it, and everyone enjoyed being back together again

The next meeting is November 8, 2020 at the Woodcraft Store in Manchester, CT. Look fore=ward to seeing you there.
